**mediCipio®** **C**

**pure collagen  
wound dressing**

**mediCipio®**  is

a **pure collagen wound dressing** indicated for treatment of poor healing chronic wounds and acute traumatic defects.

**mediCipio®**  is

a **promoter of wound healing:**

- ensures a moist wound climate
- supports haemostasis
- recruits wound healing cells
- rebalances the wound
- reduces the risk of bacterial colonisation

**safe to use:**

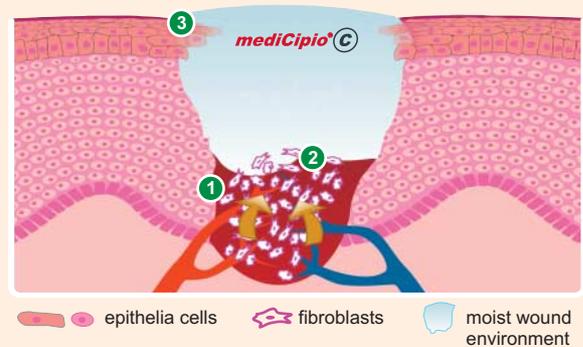

- proof of biocompatibility
- exclusion of biohazard generated by bacteria, viruses and TSE pathogens

**easy to use:**

- easily customizable
- ready to use

**completely absorbable:**

- painless dressing change

**mediCipio®**  promotes

**1 inflammatory phase:**

- extensive absorption of exudate
- a moist wound climate
- inactivation of inhibiting factors (e.g. cytokines, free radicals und proteases)

**2 proliferation phase:**

- migration of macrophages and fibroblasts
- endogenous collagen synthesis

**3 epithelisation phase:**

- migration and proliferation of epithelia cells
- effective wound closure

**mediCipio®**  is suitable for

**chronic wounds**

(in case of: decubitus, chronic venous insufficiency, peripheral arterial occlusive disease, disorders of wound healing, diabetic food syndrome)

**surgical tissue defects**

(e.g. mesh graft transplantation)

**wound cavities**

**burns**
